

ALARM CLOCK WITH BED SHAKER – C600BS

You can be in a deep sleep enjoying your dreams and don't want to be woken abruptly. Simply place the pebble shaker under your pillow and when the alarm time comes, the pebble will emit a gentle vibration or a noise to help you wake up. An ideal way to rise without disturbing the person next to you, to avoid setting the alarm volume too loud or to help people with hearing loss wake up using vibration.
