

Alarm clock with interchangeable Animals front panels – R16ANIMALS BIGBEN KIDS

Are you more like a dog, a cat or a dolphin? Depending on his mood in the evening or in the morning, your child can adapt the face of his alarm clock. He can also choose if he wants to wake up with the barking of the dog, the meowing of the cat or the sound of the bubbles emitted by the dolphin! And if he has sensitive ears, you can adjust the volume of the alarm.

To make it easier to wake up, you can set an alarm clock for school days and another one, possibly, for days without.

Characteristics
